

I am a Visual artist and painter who is based in Australia. I love expressing my feelings in the form of Art for others to experience. I am suffering from the problem of chronic Rheumatoid Arthritis and severe PTSD to which there is no cure. I never lose hope and continue painting with a renewed focus and energy

Expressing my inspirations and feelings via painting is the thing that makes me feel special.

While I am creating a painting, I use a variation of techniques, layers and colours which I have perfected over the years to give them a unique look and a new meaning.

If you would like to buy a piece of my art, please contact me.
