

Truth

"Aesthetics" is one of the deepest topics of life that is manifested in reality and acceptance of truth;

...in the beautiful insight and pure smile; in portraits that show the inner truth,
in the seconds that everyone wishes it to be repeated,

...like when we stare into the distance and consider our thoughts at sunrise and sunset; the moments when the wind caresses our face or plays with our clothes and we laugh with her, the seconds we want to always be repeated, what is not created by Photoshop or editing software.

If you would like to buy a piece of my art, please contact me.
